1. 'Space' WC for Ideal Standard
2. Garlic Press
3. 'Trend' porcelain for Rosenthal Thomas
4. Robin Levien

For 30 years, Robin Levien has been a standard bearer for innovative product design, particularly in the field of ceramics. His contemporary tableware ranges for Rosenthal Thomas and understated bathroom designs for Ideal Standard have consistently attracted international acclaim and awards.

Such is the depth of his relationship with Ideal Standard that he was made non-executive design director in 2004. vStudio Levien, founded in 1999, has a client list also including Villeroy & Boch (Germany), Guzzini (Italy) and World Kitchen International (USA).

The hallmarks of his work are beauty, function and also affordability, a trait exemplified by the fact that 15 per cent of all bathroom suites sold in the UK are designed by Levien and his colleague Dave Tilbury. His designs are also highly durable — the Trend tableware range for Rosenthal Thomas and the Studio bathroom range have been in continuous production since the early 1980s.
